ANGLEPOISE BRASS DESK LAMP DUSTY BLUE

The iconic Anglepoise Original 1227 Task Lamp is a re-creation of the acclaimed 1930s table lamp design by British automotive engineer and spring inventor George Carwardine. With its signature 3-spring mechanism and weighted 2-tier base, the 1227 works just as well as a reading lamp as it did for factory task lighting.

aluminum shade and arms
cast iron base with steel cover
brass fittings

H20.5"-23.5"
shade Ø5.7" x H6"
base Ø5.9"
cable L78"
