WHITE CERAMIC DINNER PLATE 11"

Each piece is carefully crafted by hand using a traditional coiling technique called Colombino. This technique was originated in very ancient times, when no machines were available; a practice that requires refined precision, experience, patience, and time. The forms are distinctive and one of a kind. The delicate lightness of each unique piece defines an elegant look.

white polish glaze on white paint base
Ø12" x H1"
handwash recommended
handmade in Italy

*due to handmade nature, each piece will vary slightly
