

Porcelain Cassiopeia 7 V3: Mobile Chandelier

ceiling mounted

3D VIEW

References: *abstract sculpture, timeless, the unknown...*

Porcelain Cassiopeia 7 V3 is a horizontal mobile chandelier with seven handmade translucent porcelain shades.

Our signature shapes are meticulously crafted by experts at Nymphenburg Porcelain Factory in Munich, Germany. This factory has been in continuous production for more than 275 years and their porcelain formula and craftsmanship ensures unparalleled excellence in both craft and light quality.

The Cassiopeia Series offers numerous variations and can be customized in size and finish. The frame system utilizes our unique square brass tubes to conceal the wires and incorporates specially designed joints to create its distinctive shape. The subtle, almost imperceptible movement of the fixture adds a pleasant animation to the room. **Cassiopeia 7 V3** can be customized in length, width, and height to suit specific spaces. This particular configuration is designed for long dining tables and great rooms. For a more impactful statement, it can be grouped together or combined with other configurations from our Porcelain Collection.

We collaborate closely with designers to explore what will work perfectly for your project. Utilizing 3D models, full-scale mock-ups, studio visits, and finish samples, we develop the design until it is exactly what your space needs.
