ELMORUSTICAL VIII

An aniline leather from Scandinavian cattle, Elmorustical is soft and natural, offering outstanding comfort. The finest quality hides are chosen, as this full grain leather maintains the distinct features of the natural hide, lending each piece individuality and character. The surface is untreated, offering a luxuriously soft and natural feel. This leather is more sensitive to stains and will develop a patina over time, improving with the mark of age.

Please note that when using Elmorustical to upholster expansive surfaces such as the headboard of a bed, our craftspeople will use their discretion to ensure the natural variations in the colour and grain are most elegantly displayed. This may mean adding a stitch line to the surface.

CURLY SHEEPSKIN

Our curlywoolsheepskinis durable and luxuriously soft. Its woolheight,varying between 12mm and 17mm, provides sumptuous depth while allowing for clean contours on our upholsteredfurniture.The visual depth is enhanced by the subtlevariationbetween the highlightedtipsand darker base. As every hide is unique, the structure of the wool may vary in regard to height, curls, and colour.

This material is scarce as the hides are small and, while they vary in quality, only the best quality hides are chosen before being expertly stitched together by our supplier in Sweden. This scarcity affects our manufacturingleadtime, so productspurchasedinCurly Sheepskin will always have extended lead times.

Curly Sheepskin is only available on select products, as it behaves differently from leather and most textiles in terms of elasticity which affects how it is applied to different shapes.

Curly Sheepskin is currently available for the following products:
