

Finish: **Blonde Brass**

Waxed as standard

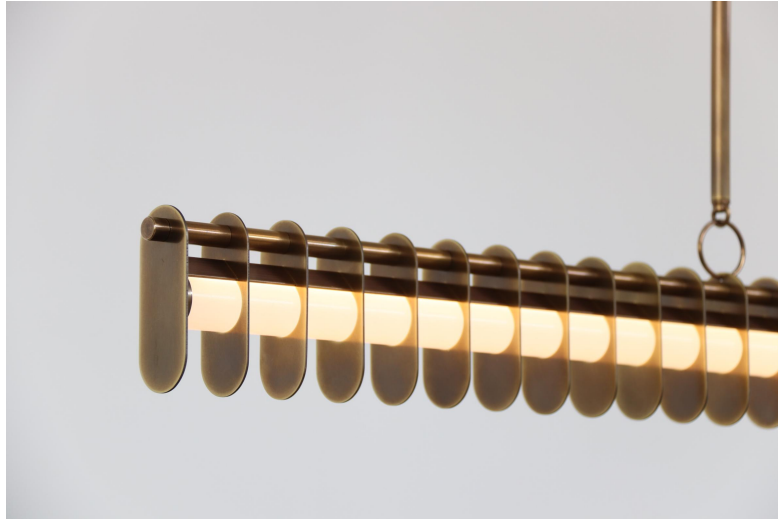

Satin Clear Enamel Coat - 10% price increase (upon request)

Maintenance: Wear gloves when handling to avoid hand prints.

Dust with a clean, dry, microfibre cloth

Will age/darken slightly over time. Waxed brass can be brightened with a metal polish like Brasso, then re-waxed.

Enamelled brass can not be brightened.

Finish: **Aged Brass**

Waxed as standard

Satin Clear Enamel Coat - 10% price increase (upon request)

Maintenance: Wear gloves when handling to avoid hand prints.

Dust with a clean, dry, microfibre cloth

Will age/darken slightly over time.

Finish: **Dark Bronze**

Waxed as standard

Satin Clear Enamel Coat - 10% price increase (upon request)

Maintenance: Wear gloves when handling to avoid hand prints.

Dust with a clean, dry, microfibre cloth

Will age/darken slightly over time.

Finish: **Brushed Nickel***

Not waxed or enameled

Nickel is a relatively stable material, but will collect hand prints.

Maintenance: Wear gloves when handling to avoid hand prints.
Dust with a clean, dry, microfibre cloth. Mild soap and warm water is OK.

*Brushed Nickel is an electroplated finish. Some of our products cannot be electroplated due to the size limitations of the electroplating baths.
Contact us to find out whether the product you are interested in can be electroplated.

Finish: **Chrome***

Not waxed or enameled

Chrome is a relatively stable material, but will collect hand prints.

Maintenance: Wear gloves when handling to avoid hand prints.

Dust with a clean, dry, microfibre cloth. Mild soap and warm water is OK.

*Chrome is an electroplated finish. Some of our products cannot be electroplated due to the size limitations of the electroplating baths.

Contact us to find out whether the product you are interested in can be electroplated.

Finish: **Black Chrome***

Not waxed or enameled

Black Chrome is a relatively stable material, but will collect hand prints.

Maintenance: Wear gloves when handling to avoid hand prints.

Dust with a clean, dry, microfibre cloth. Mild soap and warm water is OK.

*Black Chrome is an electroplated finish. Some of our products cannot be electroplated due to the size limitations of the electroplating baths. Contact us to find out whether the product you are interested in can be electroplated.
