Description

Clara Porset has become synonymous with her reimagining of the classic Latin American Butaque chair. Through her eyes, the low-slung, X-frame shaped chair features a more curved, ergonomic shape, which she enhanced further by teaming it with rich, natural materials like oak, mahogany, wicker and leather in many different iterations. Our version here is based on the designs that Porset originally created for the legendary architect Luis Barragán.

Designer
Clara Porset, 1949
