QUAD LANTERN

The Quad reimagines the traditional grand lantern with an innovative contemporary design. The external geometric bronze frame acts as a counterpoint to the delicacy of the interior translucent curved alabaster, creating a rich, modernist light. The Quad is a luxury contemporary lantern, combining the natural beauty of alabaster and bronze with a clean minimalist style. The four-sided lantern creates a sculptural and illumination focal point for hallways, entrances and dining areas.

Shown in bronze.
